Ahmet Tuna POTUR

ICT Teacher & Computer Engineer

📞 +90 535 519 60 90

✉ tunapotur@yahoo.com

📍 39750 Lüleburgaz / Kırklareli / Türkiye

In 1996-1999, when I was in high school, I worked for an information technology company. Thus, I entered the field of information technologies professionally at a very early age. Afterwards, I completed my education as a Computer Teacher(B.Sc.). and Computer Engineer(M.Sc.). As you will see in my CV, I have worked both in the private sector and in the public sector.

During my years in the private sector, I had significant overseas experience as a software developer. I worked in many countries, especially in Russia. I currently work as a specialist teacher at the Ministry of National Education. Teaching, software development and database management are my important skills.

I would love to meet you to discuss your expectations and other details about my skills.

Sincerely,

Ahmet Tuna POTUR

ABOUT ME

I started my career in the field of information technologies by working for an IT company during my high school years. I completed my university education as a Computer Teacher (B.Sc.) and afterward as a Computer Engineer (B.Sc.). I also have a master's degree in Computer Engineering (M.Sc.). During my time as a software developer, I gained international work experience by working in many countries. I still work as an expert teacher.

WORK EXPERIENCE

◆ **Teacher-Information and Communication Technology(ICT)**

Ministry of National Education - Lüleburgaz / Kırklareli
Ramazan Yaman Science High School
September 2011 - Current

- I teach web programming and basic programming.
- I guide to the school management and teachers on information technologies.
- I take part in the city-wide ceremonies of schools, providing technical support and IT consultancy for these ceremonies.
- I am responsible for the smart boards (presentation computer with touch screen) of the schools where I work.

Important Achievements

- **Outstanding Achievement Award**
  Awarded by the Ministry of National Education for being awarded with Certificate of Achievement three times. 30/03/2023

- **Two Achievement Award**
  Awarded by the Ministry of National Education for my efforts in providing face-to-face education to our students during the Covid-19 process in the 2021-2022 academic year.

- **Two Achievement Award**
  Awarded by the District Governor for my efforts and contributions to the ceremonies and events organized in the 2022-2023 academic year.

- **Certificate of Appreciation**
  For my contributions to the 24 November Teachers' Day Celebration program, I was awarded this certificate by the District Governor. 12/01/2012.

◆ **Software Development and Training Specialist**

ENKA Construction and Industry Inc. - İstanbul
March 2006 - February 2011

ENKA is a construction company operating in many countries. This company uses human resources software developed by its own organization. This software was used for keeping employee records, performance, health and safety monitoring, salary calculation and hourly labor cost calculation. My role in the team responsible for this software;

- Evaluation of software related requests, coding and testing of requests,
- Determination of the necessary information about the laws of the country where the business is located and integration into the software,
- Selection of personnel to use the program,
- User training,
- Preparation of consolidated reports requested by management.
